Explanation of a Business Activity Sub-code

DEA uses an alpha character business activity code to identify various categories of registrants. For example business activity code "C" indicates a "Practitioner". DEA added a business activity sub-code field to identify new sub-categories of registrants. For example business activity code "C" in combination with business activity sub-code "1" indicates a practitioner who has received a Drug Addiction Treatment Act (DATA) Waiver (DATA Waived or DW) to provide office based opioid treatment to 30 patients. As new sub-categories of business activities become regulated, additional sub-code combinations (e.g. C-2, C-3, A-1, etc) will be assigned.

Explanation of the DW Unique Identification Number (UIN)

DEA assigns a UIN to DATA Waived (DW) practitioners. If a practitioner is approved by the Center for Substance Abuse Treatment (CSAT) to conduct office based opioid treatment a unique identification number will print on the practitioner's registration certificate along with the DEA number. The DEA registration number and UIN would appear on the printed certificate as indicated in the example below:

AB0123454
XB0123454

The UIN is the same as the DEA registration number with an "X" substituted for the first character of the DEA registration number. If an NTIS user wants to verify a practitioners UIN they must first look-up the registrant by DEA registration number and then verify that the practitioner has either a business activity code "C" in combination with activity sub-code "1" for DW practitioners that can handle 30 patients, or business activity "C" in combination with sub-code "4" for DW practitioners that can handle 100 patients.

The Controlled Substances Act groups controlled substances into five Schedules (1, 2, 3, 4 and 5) and chemicals into two Lists (L1 and L2). The DEA registration system captures all five controlled substance Schedules, and also List 1 chemicals. Additionally, DEA breaks Schedules 2 and 3 into two subgroups, narcotic (2,3) and non-narcotic (2N, 3N) substances. The Drug Schedules and Chemical List codes are listed below:

Drug Schedules

- 1 =Schedule 1 Controlled Substances
- 2 =Schedule 2 Narcotic Controlled Substances
- 2N =Schedule 2N Non-Narcotic Controlled Substances
- 3 =Schedule 3 Narcotic Controlled Substances
- 3N =Schedule 3N Non-Narcotic Controlled Substances
- 4 =Schedule 4 Controlled Substances
- 5 =Schedule 5 Controlled Substances
- L1 =List 1 Chemicals
